CIP Project Number: WA1007

Title: University Blvd. South 20-inch waterline

Project Phase: Construction

% of Phase Completion

Design

Construction

Cost for this Phase: \$ 1,600,000

Funding Sources: Revenue Bonds

Project Manager: Keisha Seals

Contractor:

Consultant: Huitt -Zollars

Project Description: Construction of approximately 10,000 linear feet of 20-inch waterline to connect the existing 24-inch waterline that terminates at the end of University Blvd. The 20-inch waterline will continue along the proposed University Blvd South and connect to a 20-inch waterline constructed by Riverstone. Water line is being designed with University Blvd South roadway project.

Justification: This 20-inch waterline is recommended from the Water Master Plan and the updates to connection fee strategies. This 20-inch waterline will provide additional capacity to Brazos Landing area and future development in the Riverstone area.

Updates:

December 2009 – 100% complete in the Univ Blvd project package.
